ARCHITECTURAL DESIGN - LOG & TIMBER HOMES - CONSTRUCTION - INTERIOR DESIGN & DECOR
WITH WISCONSIN LOG HOMES

White Cliff

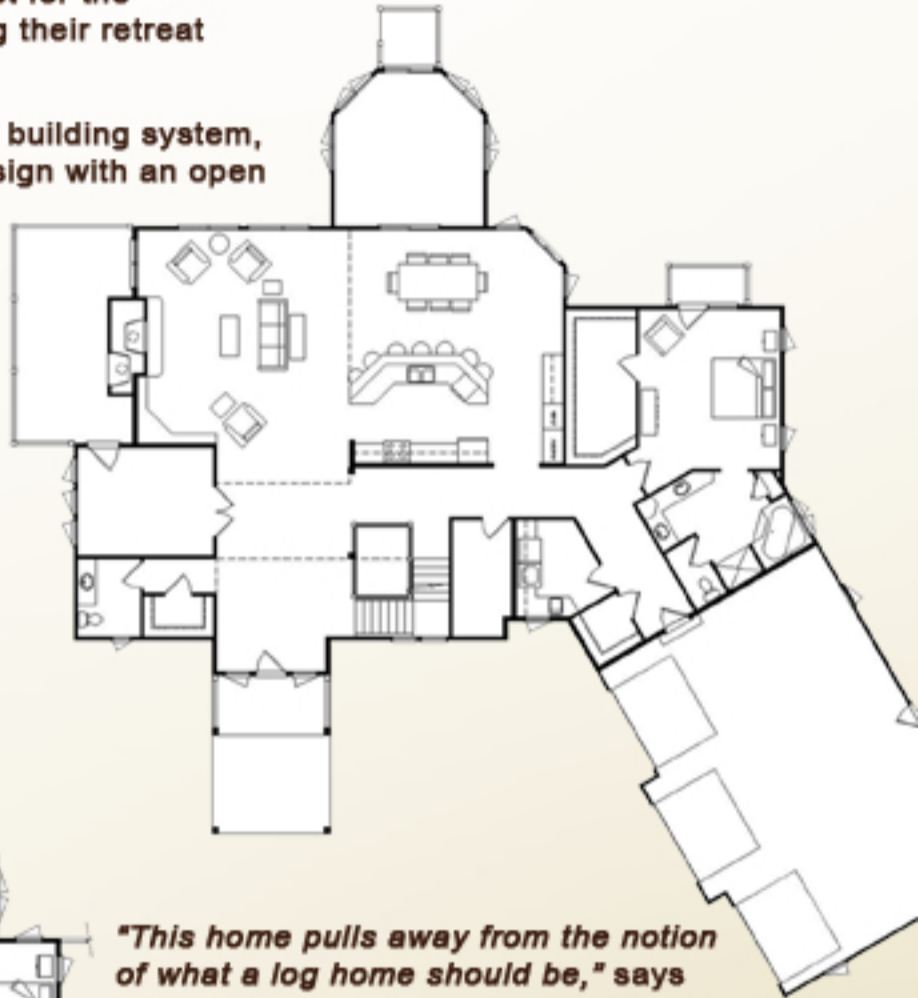

First Floor: 2,710

Second Floor: 1,066

Total Square Footage: 3,776

Contemporary, clean lines made of modern materials was a must for the homeowners while designing their retreat with Wisconsin Log Homes.

By using our Thermal-Log™ building system, the couple could enjoy a design with an open floorplan and utilize log, plaster and lots of glass.

"This home pulls away from the notion of what a log home should be," says Bob Patshcke, designer for Wisconsin Log Homes. "Logs become the accent rather than the dominant material. You don't have to live like a lumberjack in today's log home."

A massive towering stone waterfall off the foyer adds a peaceful element to the abode and combines contemporary and natural styles.
