"We are thoroughly enjoying our new home. Your team took the vision that was in our head and brought it to life. It's better than we ever could have imagined. The thought and time you put into each and every detail throughout the house is so appreciated and really paid off. Everything flows and belongs and looks beautiful. We couldn't have done this on our own, thank you from the bottom of our hearts!"

-MARK & MARY L.

"It was a joy working with your staff. My husband was concerned that the process of designing, building and decorating a custom home would be too stressful and time consuming for our busy lives. From the very beginning, we were treated like close friends. I've tagged my Wisconsin Log Homes design team as great problem-solvers."

"Your Interior Designer was very receptive to our ideas, and worked hard to help us find the unique pieces that suited our decorating style. She was most helpful and gave us the sense that we were always in control of how the home was going to look. Instead of taking over the project, she was our guide, sharing her interior design skills with us so we got just the look we were after."
