CABIN SWEET CABIN

"There's something extra special about designing and building a cottage or family retreat. These places are where the most magical memories are made and what truly bonds a family for a lifetime. What an honor it is to create these backdrops where loved ones gather, and precious moments take place."

-Nate Janczak (President of Wisconsin Log Homes)

THE HERITAGE RANCH

TOTAL SQUARE FOOTAGE: 2,677

FIRST FLOOR: 1,272 SQ. FT.

SECOND FLOOR: 610 SQ. FT.

LOWER LEVEL: 795 SQ. FT.

Cozy cabins don't get sweeter than this! An ideal retreat home, the 1,272 square foot main level lives much larger than its modest square footage suggests with soaring ceilings throughout the great room and dining, and abundant windows placed throughout. A bedroom suite sits in the main level along with a powder bathroom and mudroom/laundry. Take in the cabin's incredible views from the expansive loft. Also upstairs is an additional bedroom, bathroom and sitting room. A bunkroom and family room are placed in the lower level, providing plenty of space for hosting family and friends!
